**Subject:** Microsoft Settlement

I feel it is about time for the case to disappear from the lime light. The settlement of the case is only in the publics interest it will save the taxpayer money Microsoft can focus on its job innovate bring new and better technology to market prvided tech jebbs earn tax dollars help provide a more favorable trade balance etc. The special interes that opposes the settlement have the same right as microsoft to build a better mouse trap. Thanks for listening M.G. Fred Kick
